

CENTRE FOR SOCIAL DATA ANALYTICS

Call for papers for the annual workshop of the Centre for Social Data Analytics (CSDA)

Applied Economics Papers on Child and Youth Outcomes

February 15-16, 2018, in Auckland

The [Centre for Social Data Analytics](#) conducts research that addresses and informs social issues or challenges in core policy areas including Education, Health, Justice and Social Services.

We are pleased to invite you to submit applied economics papers for the upcoming workshop on **Child and Youth Outcomes**. A broad selection of topics fit in this general framework, including—but not limited to—early childhood, schooling, health, family issues, and public policies.

We are very pleased to host **Heather Royer** (University of California, Santa Barbara) as the keynote speaker.

The meeting will take place at **Auckland University of Technology (AUT)** in Auckland on **February 15-16, 2018**.

There is no attendance fee, but participants must cover their travel expenses. We will provide free of charge a dinner, one night of accommodation, and post-workshop drinks to speakers.

Please **submit papers or extended abstracts and indications of interest** to [Bénédicte](#), by **November 18, 2017**. We will communicate the acceptance decisions shortly hereafter.

Hoping to see you in New Zealand in February,
Bénédicte Rouland, Rhema Vaithianathan and Tim Maloney (local organizers).
